

Form Letter A: "Eliminate Pollution Exemption"

Proposed Rulemaking: Triennial Review of Water Quality Standards (#7-577)

I was disappointed to learn that the department has chosen to continue to include the "pollution exemption" for the Philadelphia section of the Delaware River in your 3-year triennial review proposal. It's time to eliminate this polluter loophole once and for all. Philadelphians should be able to have a clean stretch of the Delaware River like all the people living along the other 300 miles of this waterway.
