To whom it may concern:

I am writing in support of the Proposed Rulemaking 16-4955 in reference to Physician Assistants (PA) as written. The changes in these regulations will modernize the delivery of patient care by the Physician – PA teams in Pennsylvania.

There are no studies that show heavy legislative restrictions improve patient safety or quality of care. PA's and doctors work in sync as a unit, and very experienced PA's easily manage patient caseloads of their own over time freeing the physician to focus on more challenging cases that may require more expertise..

We sincerely appreciate your efforts and look forward to more effectively and efficiently be part of the healthcare delivery team.

Sincerely,

Maureen Patt Bogut
