Harrisburg, PA 17105-8477

To Whom It May Concern:

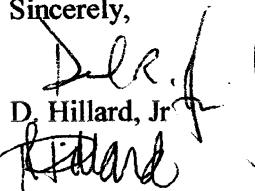

Considering recent events in New York and biochemical awareness nationally,
addressing Pennsylvania's rules about our right to know about the quality
of our drinking water is of utmost importance.

I was recently informed that under current ruling, standard response to notify the public
Of unsafe drinking water is 30 days. In support of CLEAN WATER ACTION, we
Would like to comment on two rules that currently affect our right to know about the
quality of our drinking water: the Public Notification Rule and the Consumer Confidence
Rule: WE...

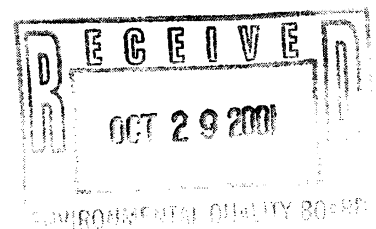

- REQUIRE UTILITIES TO NOTIFY THE MEDIA WITHIN 24 HOURS ANY
TIME OUR WATER VIOLATES STATE STANDARDS!
- REQUIRE UTILITIES TO USE MULTIPLE METHODS TO INFORM US
WHEN OUR WATER IS UNSAFE!
- REQUIRE THAT CONSUMER CONFIDENCE REPORTS LIST HEALTH
EFFECTS FOR ALL CONTAMINATES!

Our family thanks you for hearing our comments.

Sincerely,

D. Hillard, Jr.

I respectfully request you pursue the strengthening of our right to know rules pertaining to clean water quality. I recommend such things as notification within 24 hours any time our water violates state standards; requirement of utilities to use multiple methods to inform the public when our water is unsafe and identification of health impact for all contaminants in our water.

Cordially

Easton, PA 18040

Dear Ladies and/or Gentleman:

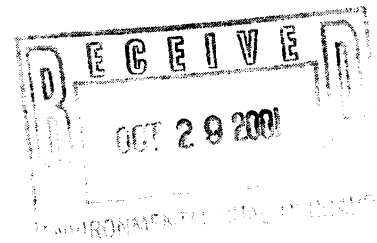

As a taxpayer and registered voter, I would like you to strengthen Pennsylvania's rules about our right to know about the quality of our drinking water. Two main points that my family and I support are: 1)to require utilities to notify the media within 24 hours any time our water violates state standards, and 2)to require utilities to use multiple methods to inform us when our water is unsafe.

Thank you for your concern for my family and all Pennsylvanians.

Yours truly,

Mrs. Renee M. Pascucci

Environmental Quality Board
PO Box 8477
Harrisburg PA 17105-8477

To whom it may concern,
I would like to express my concern to you on both the Public Notification Rule, and the Consumer Confidence Report Rule. As I understand them they are for the protection of the public, therefore should be held to strict standards. Require utilities to notify the public of any water violation standards within 24 hours, and do so with multiple methods of notifications. Notify all consumers, not just paying customers.
Everyone has the right to a safe environment.

Sincerely

Al Latronica

To Whom It May Concern:

I am writing to ask that you support legislation to strengthen Pennsylvania's rules about our citizens' right to know about the quality of our drinking water. Specifically, I hope you will support legislation that will:

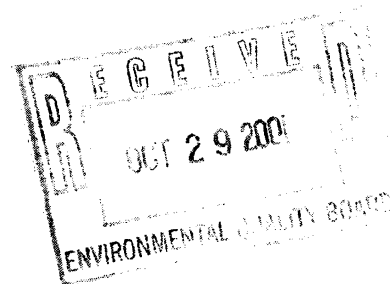

- Require utilities to notify the media within 24 hours any time our water violates state standards.
- Require utilities to use multiple methods to inform us when our water is unsafe.
- Require that Consumer Confidence Reports be sent to all consumers, not just bill-paying customers.

Thank you for your consideration.

Sincerely,

Elizabeth W. McKay

To who it may concern

I'm writing you on the topic of our drinking water and garbage in our state. The first point is that utilities notify the media within 24 hours if our water violates state standards. The second point is that utilities use multiple methods to inform us when our water is unsafe. The third point is that specific polluters be named when data is available. I hope that you will look into these issues because it affects us all in the state of Pennsylvania.

Sincerely yours:

Craig W Wilcox

Gentlemen:

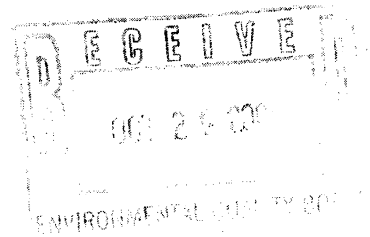

I am writing to urge you to strengthen Pennsylvania's rules about the consumer's right to know about the quality of our drinking water. For example, require utilities to notify the media within 24 hours when our water violates state standards, as well as using other methods to inform the consumer of water standard violations.

I also urge you to monitor and restrict the amount of outside garbage being dumped into landfills in our state, which can ultimately leach into the ground water supply and affect our water quality.

Sincerely,

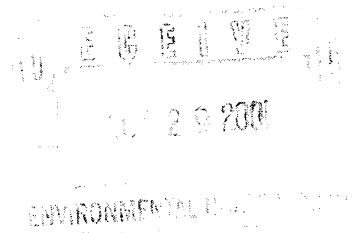

Susan E. Wexler

To whom it may concern:

It is important to the public to know that the rules about the quality of our drinking water be at the highest level possible — All utilities must notify the public via All media within 24 hours of any water violation to our state standards. Radio, TV and newspapers and if necessary via postal notification.

I personally want to be aware and well informed of any violations because children and the elderly are always the most at risk — so please do not lower the requirements.

Comment:

Dear Environmental Quality Board

Please strengthen the proposed rules for Public Notification and Consumer Confidence Reports that were recently published in the Pennsylvania Bulletin.

Receiving timely and accurate information about the quality of drinking water is very important to protect our health.

I urge you to make the following changes to the proposed rules:

Public Notification Rule:

- Require all utilities to notify the media within 24 hours whenever their water violates a state drinking water standard.
- Require utilities to use multiple methods to notify the public, especially for the most serious violations.

Consumer Confidence Reports:

- Make sure that Consumer Confidence Reports (CCR's) list specific polluters by name when reliable data is available from government reports or databases.
- Require that CCR's be sent to all consumers, not just bill paying customers.
- Make sure that CCR's include health effect information for all detected contaminants.

Dear Environmental Quality Board:

Please strengthen Pennsylvanian's rules about our right to know about the quality of our drinking water:

- ❖ Require utilities to notify the media with-in 24 hours any time our water violates state standards and use multiple methods to inform us when our water is unsafe.
- ❖ Require that Consumer Confidence Reports be sent to all consumers, not just bill-paying customers.

Sincerely,

Marlene K. Sahms

PA ENVIRONMENTAL
QUALITY BOARD

Environmental Quality Board:

Having clean drinking water is a matter of great importance to my family and myself. The utilities that sell us our water should be required to maintain high, safe standards and keep their customers informed of their compliance with these standards.

Pennsylvania's rules should:

- Require utilities to notify the media within 24 hours any time our water violates state standards.
- Require utilities to use multiple methods to inform us when our water is unsafe.
- Require that Consumer Confidence Reports lists all health effects for all contaminants detected in our water.

Richard Glaser

Easton Pa 18040

To Whom It May Concern,

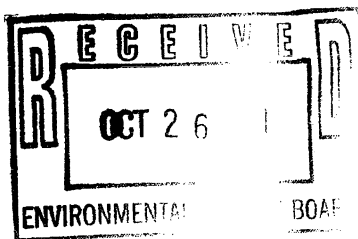

As a resident and taxpayer in this state I'm concerned about the quality of water and the methods used to notify us when our water violates the State's Standards.

Utilities should be required to use multiple methods of informing us when our water is unsafe. This should be done within 24 hours of a violation.

I also feel reports listing specific pollutants by name when data is available should be made public.

Sincerely,

Diane Ditze

Environmental Quality Board
PO BOX 8477
Harrisburg PA 17105-8477

October 22, 2001

To the Board:

As a concerned consumer, I advocate for regulations that would increase public knowledge concerning drinking water and its quality and purity. To implement greater public knowledge, please require utilities to notify the media within 24 hours any time our water violates state standards and use multiple methods to inform us when our water is safe. In addition, please require that Consumer Confidence Reports be sent to all consumers, regardless of their bill-paying status.

The strengthening of these guidelines will ensure better health for Pennsylvania citizens.

Sincerely,
Kate Woodford

To the Environmental Quality Board

Require utilities to notify the media within 24 hours any time our water violates state standards and use multiple methods to inform us when our water is unsafe.

Require that Consumer Confidence Reports be sent to all consumers, not just bill-paying customers.

Thanks,
Terrance Tox

Environmental Quality Board
P.O. Box 8477
Harrisburg, PA 17105-8477

I believe that the Public Notification Rule should require the public to be notified within 24 hours whenever something happens that causes our water to violate the state standards. The notification should not be limited to use of the media, but should include use of any means necessary to properly inform the public.

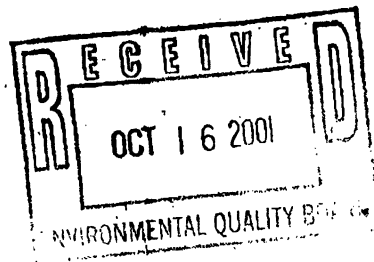

The Consumer Confidence Report Rule should provide a listing to the general public of specific polluters when there is accurate information available as to the source of the pollution.

Re: Drinking Water Quality and Safety

Sirs:

Why aren't tax paying citizens made aware of the quality of our drinking water?

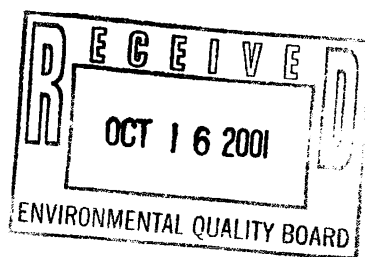

Why aren't the Utilities required to notify the media within 24 hours when our water violates health state standards.

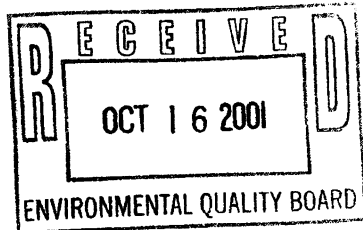

The utilities should also use multiple methods to inform us when our water is unsafe.

Also, why doesn't the Consumer Confidence Reports list health effects for all contaminants detected in our water.

To avoid a major health problem, we request that you strengthen Pennsylvania's rules about our right to know about the quality of our water.
