Subject: Strengthen Pennsylvania's rules - right to know about quality of drinking water

I am writing to help to strengthen Pennsylvania's rules concerning our right to know about the quality of our drinking water.

We need to:

Require utilities to use multiple methods to inform us when our water is safe.

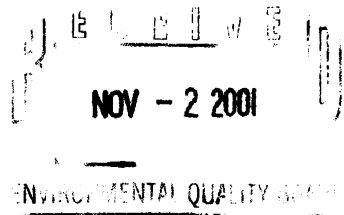

Require utilities to notify the media within 24 hours anytime our water violates state standards.

Have Consumer Confidence Reports list specific polluters by name when data is available.

Thank you for your time.

To Whom It May Concern:

We think it's only fair to be notified immediately any time our water violates state standards. You should use multiple methods to inform us when our water is unsafe for use. We also wish that you require Consumer Confidence Reports to list the health effects for any and all contaminants found in our water. We feel that Pennsylvania's rules about our right to know about the quality of our water need to be strengthened in these ways.

To Whom It May Concern:

I am concerned about the ongoing strength of Pennsylvania's rules concerning a citizen's right to know about the quality of the drinking water. Pennsylvania could do the following to improve the current situation:

- Require that the utility companies notify the media as well as other forms of communication, within 24 hours of any occurrence that causes our water to violate state standards.
- Require that Consumer Confidence Reports list the names of specific polluters and make that information available to the public

Thank you for your attention.

Dear Reader:

I would like the media to be contacted within 24 hours when our water has been polluted. I would also like to be notified in at least one other way; e.g. send letters to the customers of that water source. Our health is at stake and we need this information to protect ourselves.

Please also give the utilities permission to provide the media with the names of the polluters. Our drinking water is precious, and no industry or company should be allowed to damage it. Their reputations should be tarnished as much as they tarnished our water.

I am writing to propose strengthening
the rules about my right to know
about the quality of our drinking
water. Require utilities to notify
the media within 24 hours any time
our water violates state standards.
Require that Consumer Confidence Reports
be sent to all customers, not just
bill-paying customers.

Sincerely,

Willie Rambert

To Whom It May Concern,

One of the most precious resources we have is water and in many ways it is one of the most taken for granted. Given the complexities with supplying water to thousands/millions of people I understand that problems can happen. What is unacceptable is the lack of forthcoming information in a timely manner, 24 hrs, about problems and violations to our shareholders.

I understand that it is a top priority for the municipalities to correct and improve our drinking water. I also expect that is their mission statement. However, full disclosure to all consumers is necessary in building and preserving trust.

Thank you,

TO WHOM IT MAY CONCERN:

I Feel it is very important
to the public to be notified of any violations
in the state standard of our water
within 24 hours by notifying the
media.

A list of these polluters should
be made available to the public.

Thank you,
Holly Edelmaier.

This letter concerns strengthening Pennsylvania's rules about our right to know about the quality of our drinking water:

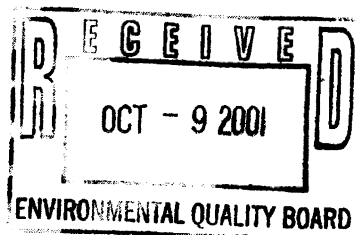

1. Require utilities to notify the media within 24 hours any time our water violates state standards and use multiple methods to inform us when our water is unsafe.
2. Require that Consumer Confidence Reports list specific polluters by name when data is available.

Dear Sirs:

I the undersigned think it would be a good idea, as a matter of fact a requirement that all utilities notify the media within 24 hours any time our water violates state standards. I would further like the public to know via multiple methods any time our water becomes unsafe in any way. Included in this information should be listed the health effects of any and all contaminants detected in our water.

Thank You

To Whom It May Concern:

The quality of our drinking water is extremely important and I want to make sure that the water is safe to drink.

Since it is our right to know about the quality of our water, at any time it violates state standards, it is imperative that we are notified within 24 hours and use multiple methods to inform us when the water is unsafe.

I also feel that Consumer Confidence Reports should list health effects for all contaminants detected in our water.

Sincerely,

Deborah Kell

Dear Environmental Quality Board,

As a PA resident, I feel our rights to know must be maintained, especially about the water we use everyday. I urge support to require utilities to notify the media within 24 hours anytime our water violates state standards and use multiple methods to inform us when our water is unsafe. As a set of rules, it is also necessary to require that Consumer Confidence Reports list health effects for all contaminants detected in our water.

Sincerely,

As a water consumer, I believe it is my right to know when my water is unsafe to drink. My health is at stake needlessly.

Please pass the Public Notification Rule so that me and my family can avoid exposure to dangerous levels of chemicals in our water.

Secondly, I feel it is my right to know about my contaminants that are in my water and how they got there. Consumer Confidence reports should be sent to all consumers and include information about what polluters in my area are causing the most harm. How can we protest their harmful actions if we don't know who they are?

Thanks you for your time,

Dear Sirs,

Please help us protect peoples lives and prevent them from getting mad and suing their water utilities by enforcing the Right to know stipulations which would inform people of health threats found in their water through the media in a 24 hour window.

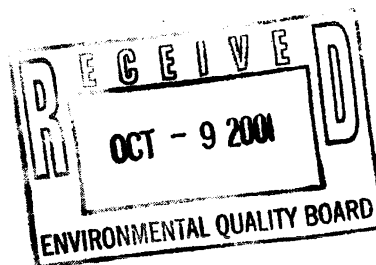

A handwritten signature in black ink, appearing to be "Genot A K", written in a cursive style.

To whom it may concern,

Please strengthen Pennsylvania's rules regarding our right to know about drinking water by requiring utilities to notify the media. Also, require them to notify customers of water contamination within a 24 hour window. You should also require Consumer Confidence reports. Thank You.

Sincerely,

-John Tepe

To Whom it may concern:

The EQB should require water companies to reveal the names of corporate polluters and notify the media within 24 hours if there is a health threat in the water supply. Don't weaken our right to know laws; strengthen them.

Sincerely,
Bill Retting
