Dear Environmental Quality Board Member,

We urge your passage of the proposed rulemaking changes in 25 Code Chapter 95, Wastewater Treatment Requirements as published in the PA Bulletin, November 2009.

We live in northern Pennsylvania; however our family has a cottage on the Chesapeake Bay that overlooks the "Susquehanna Flats." We are keenly aware that anything dumped into the water upstream will end up in our front yard. Please continue the encouraging work that the Chesapeake Bay Foundation and others have done for so many years by passing this important change.

Thousands of people are watching both you and the gas companies very closely. Please do the right thing.

Sincerely,

Robert D. and Cynthia B. Borzok
