ALL of us suffer when drilling operations are poorly regulated and drillers are allowed to pollute our land, air and water. You must act to protect everyone, not the industry - insist that Chapter 78 and 78a, the gas and oil drilling rules, be swiftly adopted. The purity of our water is infinitely more precious than more gas which we should be phasing out as fast as possible. The strictest possible regulations are called for.

Sincerely,
Rita Varley
