Subject: Non-immunized children document 6-336 IRRC #: 3146

Can the wording "must not" be used instead of "may not" ?

Also is it possible to get the the first 5 days of school or risk exclusion extended to 30 days or October 1st. It is going to be very difficult for school nurses to get this done with in the first 5 days of school along with all of the other School Nurse duties the beginning of the school year. Thirty days will be feasible for school nurse to enforce and still get all new medications and new health conditions taken care of, for the best outcome for all of the students ?

Thank you,

Erin Lacue, MSN, RN, CSN
