**Subject:** Comment received - Proposed Rulemaking: Revision of the Maximum Allowable Sulfur Content Limit for No. 2 and Lighter Commercial Fuel Oil

**Re: eComment System**

**The Department of Environmental Protection has received the following comments on Proposed Rulemaking: Revision of the Maximum Allowable Sulfur Content Limit for No. 2 and Lighter Commercial Fuel Oil.**

Commenter Information:

Michael Hinds  
Hinds Oil Co., Inc. (mhinds@epix.net)  
PO Box 100  
Montrose, PA 18801 US

---

Comments entered:

Hinds Oil Co. is located in Montrose and have been service our communities with their heating needs since 1944.

We completely support the change from 500 PPM heating oil to the low sulfur 15 PPM. It will be beneficial to all involved. Mostly to the consumer as it will reduce accumulated debris inside the heating units making them operate more efficiently. It will work with all type of existing heating equipment. It will make the fuel storage for dealers much simpler as well. Most importantly it will make the air quality better for future generations.

Michael Hinds  
President  
Hinds Oil Co., Inc.
