I was brought to my attention that Pennsylvania plans on getting rid of the pharmacist at the marijuana dispensaries. I have had so many great experiences with the pharmacist at these dispensaries. I haven't also had just as many bad experiences listening to The employees at the local dispensaries that were an actual pharmacist.

I have extreme anxiety issues as well as a heart condition. Certain strains of marijuana can trigger my irregular heart rhythm, other strains help tremendously with my anxiety and other ongoing issues with little to no impact on my heart rhythm.

I am strongly suggesting against getting rid of the pharmacist at the local dispensaries. If it is in your power to keep them in place please do so.

Thank you,
Tom McCafferty
