Subject: Comments Regarding Proposed Regulation #6-349: Charter Schools and Cyber Charter Schools

CAUTION: **EXTERNAL SENDER** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Good Evening,

I am deeply concerned about how easy it is for charter schools to take advantage of lax regulations in order to artificially boost profits through EMO contracts, pay CEOs exorbitant salaries, drain funds from local public schools, discriminate against students with disabilities, over-identify special education students in order to charge more per student, avoid accountability measures required of public schools, and mismanage taxpayers' funds.

Current proposed regulations for charter and cyber charter schools are inadequate for ensuring appropriate use of public funds and quality educational services to all students. I strongly support the comments submitted to you by PSBA via letter on March 8, 2022. I exhort you to adopt their sensible recommended revisions.

Thank you for your consideration.

Sincerely,

Eduardo Antonetti, Ed.D.
