

PETITION TO GOVERNOR WOLF and the INDEPENDENT REGULATORY REVIEW COMMISSION (IRRC):

As parents, guardians, students, staff members and supporters of public charter schools from Philadelphia to Pittsburgh, we are calling on you to halt the harmful regulations proposed by the Department of Education (Regulation #6-349 Charter Schools and Cyber Charter Schools).

These regulations threaten the very existence of the public charter schools that have been transformative in our children's lives. These regulations go beyond the scope of the Charter School Law and burden our schools with more bureaucratic red tape, which will ultimately take resources away from our students.

Proposed regulations should be created in collaboration with the individuals and groups who will be impacted by the regulations – in this case that's us – the public charter school community. Governor Wolf and his administration never engaged public charter school families, students or educators to explain how these regulations would impact us. When our community asked to be involved in the drafting of these regulations, we were told no. When we submitted concrete suggestions and hundreds of letters in opposition to the proposed regulations, we were ignored. **WE ARE ASKING YOU TO HEAR US NOW.**

Charter schools are public schools, free and open to all. We are citizens of Pennsylvania and we need the attacks on our public charter schools to stop.

We are calling on Governor Wolf to withdraw his proposed regulations and on the members of the Independent Regulatory Review Commission (IRRC) to vote in opposition to these regulations.

*Signed by the following **3,297 public charter school parents, staff and supporters** as of March 18, 2022:*
