To whom it may concern,

This 502 page proposed regulatory change is a complete overreach and violates the constitution. It takes away parental rights, individual rights and even property rights.

It goes against William Penn's vision for Pennsylvania. To be a colony where people can be free from government control. This proposal takes us back 300 years.

My ancestors came to Pennsylvania for religious freedom, individual freedoms, freedoms for their children and free to farm and raise food.

Please hear the people and eject this plan. Please do not be so arrogant as though you are smarter than the people. Please set aside your desire and insatiable need to control the masses.

Remember you were not elected.

Thank You, State Representative Dave Zimmerman
