Please provide to parents of students full disclosure, consent and opt-out options, and as much accomodation as possible regarding all health decisions that affect their children.

Please require clear and ongoing communication for the parents and taxpayers in the communities where their schools operate regarding the education and health care provided in their schools, including all relevant health and scientific studies on which decisions are based. Parents and taxpayers should have a voice in the process of how laws are made in public schools, and full access to all information regarding those laws and rules. Parents and taxpayers should have easy access to the curriculum being taught to their children, including and especially healthcare and sex education.

Please protect and provide opportunity for freedom of speech and presentation of studies especially for those that do not support or go against decisions made and laws implemented.
