I oppose all amendments to the PA Department of Health's changes to Chapter 27.60c. Parents shall always be notified first and foremost on any condition or situation affecting their child. Parents should always be present prior to any meeting with their child.

As we've learned with Covid, "Public health officials" do not always know what's best, nor do they act in the best interest of every individual or the community.

PA DOH already exercises more authority than should be allowed.
