CAUTION: **EXTERNAL SENDER** This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

The purpose of this email is to file a formal objection to Gov Shapiro's proposed medical mandates and control over vaccines, etc. All of the intended controls are unconstitutional and unlawful. The government does not have to right to our medical decisions by its own restrictions - HIPA laws. Nor does it have the authority over parents' rights concerning their own children.

This 502 page document of government overreach must NOT EVER be implemented. The fact that it is being proposed without public knowledge and consent is proof that it is outside the scope of the Constitution and will of we, the people.
