Dear Governor Shapiro and Department of Health,

I wish to comment on the proposed Department of Health Regulation #10-242. I am appalled at the threat to our rights as citizens of Pennsylvania that this proposed regulation, #10-242: Communicable and Noncommunicable Diseases, IRRC Number 3490" would impose. As a citizen of Pennsylvania, I voted to limit the emergency powers of the governor during a medical emergency and to ensure that checks and balances would be put in place to ensure those powers would not be abused. Now I read of this proposed regulation #10-242: Communicable and Noncommunicable Diseases, IRRC Number 3490", that gives powers far beyond what we as the voters of this state voted to limit in May of 2021! These proposed regulations would impose on our rights as parents and individuals and impose on our religious liberties and beliefs. These are only a few of the examples of the government overreach into our families' rights, personal health care and choices, and our everyday life that these regulations represent.

Please note that I am NOT IN FAVOR OR IN AGREEMENT WITH THESE PROPOSED REGULATIONS know as "Department of Health Regulation #10-242: Communicable and Noncommunicable Diseases, IRRC Number 3490".

Sincerely,
Larry J. Elmore
