To Whom It May Concern:

I am writing today as a resident of Pennsylvania to respectfully, but strongly oppose the proposed regulation changes in regard to IRRC# 3490, under PA Code 28, Chapter 27.

While public safety should always be a top priority, this proposal, as written, would expand governmental overreach far beyond what we endured during the covid pandemic. The same overreaches that now have been proven to be faulty at best. The negative impacts of that overreach are still very much felt and seen in our/ our children's daily lives, as well as our economy many years later. The current proposals are both unconscionable, and devoid of reason.

Further, the people of Pennsylvania have been very clear that we will not allow broadening government overreach in any capacity usurping our rights and protections covered under both the PA and US Constitutions.

Again, I strongly oppose these proposals individually, and as a whole, as written, should be discarded.

Thank you for your time and attention to my comment.

Respectfully,
Melissa Kaminski
Hummelstown, PA
